FOR IMMEDIATE RELEASE

ACT Seminar Attendees Optimistic on Industry

COLUMBUS, IN – Despite a softening economy, participants at the recent seminar held by ACT Research Co. (ACT) remained optimistic about the commercial vehicle and transportation industries. ACT held its 45th seminar September 12-14 in Columbus, Indiana. It was attended by personnel from more than 100 companies, some of whom went on to tour a large package consolidation hub and intermodal facilities in Chicago.

Attendees for the most part indicated that their businesses were on solid footing, and they remained confident despite economic uncertainty.

“There is concern about the economy,” stated Ken Vieth, ACT’s senior partner and general manager. “The impression that we got from attendees is that we will get through this period of uncertainty. Those in the intermodal business, especially, are still quite positive,” added Vieth.

ACT holds two seminars each year for its *Outlook* subscribers. The next seminar, #46, will be held March 20-22, 2012. ACT is the worldwide leading publisher of new and used commercial vehicle (CV) industry data, market analysis and forecasting services for the North American market, as well as the U.S. tractor-trailer market and the China CV market. ACT’s CV services are used by all major North American truck and trailer manufacturers and their suppliers, as well as worldwide banking and investment companies.
