FOR IMMEDIATE RELEASE

ACT's Vieth Chairs China Heavy Truck Conference

COLUMBUS, IN – Kenny Vieth, president and senior analyst of ACT Research Co., recently chaired the second annual Heavy Truck Conference in Weihai, China. The two-day event attracted 150 participants, primarily from China, but with representation from North America, Europe and Australia.

"I was honored to be asked to serve as chairman of this conference," said Vieth. "It was an opportunity to increase our understanding of the Chinese commercial vehicle industry." The conference was also attended by Frank Maly, ACT's director-CV analysis and research.

Speakers at the conference included leaders from global industry suppliers, Chinese truck makers and suppliers, key industry participants such as Sinopec and CNOOC, as well as representatives from Chinese think tanks.

ACT Research, based in Columbus, Indiana, has published a forecast of the commercial vehicle industry in China since 2009, in partnership with China's State Information Center (SIC). The SIC is affiliated with the National Development and Reform Commission of China and is engaged in research on the macro-economy, key industries and information technology.

ACT is the worldwide leading publisher of new and used commercial vehicle (CV) industry data, market analysis and forecasting services for the North American market, as well as the U.S. tractor-trailer market and the China CV market. ACT's CV services are used by all major North American truck and trailer manufacturers and their suppliers, as well as worldwide banking and investors.
